

Options 719 Spezial voor GS en RT

BMW Motorrad Spezial is range of iconic customisation features, also available for the new R 1250 GS and R 1250 RT, which enhance both performance and value and are available as optional equipment items ex works. The focus in implementing these attributes is on harmonious integration in the vehicle as a whole, use of the very highest-quality materials, elaborate manual workmanship and characteristic attention to detail.

In addition to the Option 719 Spezial finishes in Blue Planet metallic and Sparkling Storm metallic, the Billet Packs Option 719 Classic and HP are available for the R 1250 GS and R 1250 GT, for example. Here, the very highest level of manufacturing precision is combined with filigree design – and using highly durable aluminium: hand levers and footrests are milled from a single block of aluminium, while cylinder head covers and engine front cover are made from a forging blank. Developed according to rigorous BMW Motorrad quality requirements, they always guarantee a perfect match.

The Billet Packs include cylinder head covers, ignition coil cover, oil filler plug and engine front cover, clutch and brake levers and the expansion tank cover. In the new R 1250 GS the packages also include the footrests on the left and right, the footbrake and gearshift levers and milled mirrors.

Option 719 Billet Pack Classic – straightforward elegance with a purist aluminium look.

While most of the surfaces have a untreated aluminium look, some visually emphasised by means of a anodized coating. This serves to refined, straightforward character of In spite of this purist appearance, protected by means of a durable, anodized coating.

natural, areas are light grey underscore the the Billet Pack. the surface is colourless

Billet Pack HP – sporty, dynamic simple colouring with powerful accentuations.

Most of the surfaces are anodized whereby some milled surfaces are a natural aluminium look. Milled blue anodized coating and the blue on the cylinder head covers give Pack a sporty look.

flair through

Option 719 wheels.

The high-quality Option 719 cast wheels for the R 1250 RT are available in two design variants:

- "Classic" design: grey gloss, mill finished.
- "Sport" design: black gloss, mill finished.

The detailed milling contours give the burnished wheel a strikingly refined design. The very highest quality and precision in the surface finishing technique makes

the wheels highly resilient to environmental impact. Here, manufacturing technology and surface finishing technique have been combined to create a truly unique product.

HP sports silencer.

HP sports silencers by Akrapovič are available ex works for both new boxer models. The slip-on silencers in sporty design are made entirely of titanium, making them 0.5 kg lighter than the standard silencer.

Option 719
Spezial finishes
in Blue Planet
metallic and
Sparkling Storm
metallic for the
R 1250 RT.

A particularly intense metallic effect is created by the two Spezial colours Blue Planet metallic and Sparkling Storm metallic. The body colour is to be found on the central fuel tank cover, the left and right-hand fuel tank covering, the trim on the case lids, the front, rear and side trim section and also on the front spoiler, front wheel cover and knee cover. Chrome elements such as the handlebar weights and windshield trim element underscore the luxurious character of the new R 1250 RT.

The engine spoiler finished in Night Black creates a fascinating contrast with the power unit in Aluminium Silver metallic. Silver-coated wheels and golden brake calipers emphasise the high-quality appearance of the new R 1250 RT.

The elaborate hand-drawn lines likewise reflect the very highest level of craftsmanship. Every stroke of the brush is applied manually – so every motorcycle is a unique specimen.

In conjunction with the two Spezial paint variants, customers can also upgrade the new R 1250 RT with the Option 719 seat in brown. However, this seat is available in standard seat height and with seat heating only.

Option 719 seat – the ideal supplement to the Option 719 paint finishes.

The elegant dark brown seat is offered with the Option 719 paint finishes Blue Planet metallic and Sparkling Storm metallic. The mixture of materials combined with decorative seams gives the seat a very exclusive, high-quality character. It is also possible to feel the premium character of the materials since the seat has a very distinctive haptic quality. The discreet marbling likewise enhances the seat visually in conjunction with the basic colour.
